FROM THE SCIENTIFIC EDITOR

Dear Fellows

Journal of India section of PFA is completing its 24 years of continuous publication and is stepping ahead into silver jubilee year the 2011. The Journal was lauched in April 1987 at a Function held at Indore duly released by Maj Gen. S.N. Luthra the then ADGAFDS. After this the Journal has never looked back and has received a commendable recognition in the secientific forums nationally as well as the out side the country.

It is one of the few scientific Journals which is being published unerruptedly for last 24 years maintaining throughout an approciable scientific standard with a modest get up, published basically on no profit no loss basis. We always have resisted commercialization of this organ.

The credit of this success obviously goes to the unstinted efforts and whole hearted support of the Editorial board, the contributors and the partonage extended by the subscribers and the advertisers.

Chief editor Dr. V.P. Jalili, The Right hand of the Journal with his zealous Journal Commitee deserves special word of apprcciation in this noble venture of India Section of PFA.

At this juncture of Silver Jubilee year may we appeal to the contributors to help us in maintaing and uplifting the quality of Scientific maerial by contributing articals of standard based on orginal work referaining from plagerisation and thus help in maintaning clean academic image of the journal.

Wishing you all seasons greetings & Prosperous 2011

S. S. Siddhu
Scientific Editor
