Student Members : Sri. N. Raghunathan, Sri R. Manoharan and Miss S. N. Srimathi.

General

Reliability Engineering An International Journal Editor F. R. Farmer, Published by Applied Science Publishers, Ripple Road, Barking, Essex, England Subscription Overseas £ 25.00 all inclusive

Applied Science publishers a company within Elsevier Science publishers have commenced publication of the above Journal under the editorship of Prof. F. R. Farmer. The Journal is published quarterly. The objective of the new Journal is to focus attention on the application of reliability and probabilistic techniques in design in research programmes, and in inspection and maintenence of plant. The second issue of Vol. I (Oct.-Dec. 1980) contains several articles from contributors from various countries on the analysis of failures and safety technology ranging from nuclear plants to process industries.

This Journal will be a very valuable addition for understanding the reliability and safety aspects where components and systems are concerned.

Surface Science Letters, Editor Harry G. Gatos Publishers North-Holland Pub. Co., Subscription USA $ 30.00 per year.

This weekly publication contains abstracts of papers to appear in surface Science a publication of international repute, together with letters to the editors covering short scientific communication, and other news items. This attempt has been with a view to quick dissemination of research results in the field of surface science.
