INSTRUCTION TO AUTHORS

This journal is devoted to the Science and Technology of Electrochemistry, Electrohydrometallurgy, Electrothermics Electronics, Semi-conductors, Batteries, Corrosion, Industrial Electrochemistry, Protective coatings and Metal finishing including Surface treatments, Paints and varnishes, Electroplating, Anodizing and other allied subjects.

The journal publishes the following types of articles:

1. Full length research papers reporting original scientific research results.

2. Short notes which are brief self contained accounts of experimental results or theory which deserve early publication because of the importance of the finding or because the result is an additional finding when persuing some other problem.

3. Technical notes- These include short case studies or shop floor experiences.

4. In addition to the above mentioned contributions, INVITED articles reviewing some subject of topical interest are also published.

The journal has instituted a few prizes for the best paper in specified fields and this is based on the adjudication of the papers by a jury consisting of experts drawn from all over the country.

FORMAT OF THE PAPER

The TITLE should indicate the subject of the paper clearly. Descriptive subheadings should be used in all full length research papers and review articles. A short title (for use as running title in each page) should be indicated. Each paper should be accompanied by an ABSTRACT which indicates the content of the paper and gives essential data and main conclusions.

The text of the paper must be written as concisely as possible without sacrificing clarity. No data is presented both in graphs and tables. The precision of the data should be kept in mind while reporting the results. Tables should be serially numbered in Arabic numerals and typed on separate sheet. All tables should be provided with headings; the column headings must be complete with units. Graphs should be drawn on tracing paper in Indian ink with all letterings in pencil. The width of the figure must be within 10 cms. Essential letterings, if any, must be with 3 mm stencils. Photographs should be kept to a minimum. Essential photographs must be submitted in black and white glossy prints with the figure number marked at the back; the legends must be typed on a separate page. The symbols used for common electrochemical parameters must conform to the standard format.

References should be numbered serially and should appear in square brackets at the appropriate place. All references in sequence are to be given at the end of the paper. International journal abbreviations as used in Chemical Abstracts or the World List of Periodicals should be used. The format of the references are as follows:

1. N. Schwarz, M. Gresh and S. Karlik, *J. Electrochem.Soc.*, **108-8**, (1967) 7. **[Volume Number** (year) page]

2. H.H. Uhlig, *Corrosion and Corrosion Control* (2nd Ed) (1971), **Wiley-Interscience, New York,** p.147.

SUBMISSION OF PAPERS

The manuscript must be typed with double spacing on white bond paper. Two typescript copies of the paper including tables and figures with legends to the figures and one set of figures on tracing paper in Indian ink should be sent to the Editor, The Electrochemical Society of India, Indian Institute of Science Campus, Bangalore 560 012, India. All contributions are acknowledged. Although the authors need not necessarily be members of the society, it is hoped that they will be.

All contributions are suitably refereed. Acceptance would be sent to the authors as soon as decision is taken. The criteria for acceptance is originality and quality of scientific content of the paper. Short notes are acceptable. They are published more quickly but FRAGMENTATION OF A SUBSTANTIAL BODY OF WORK INTO A NUMBER OF SHORT PUBLICATIONS STRONGLY DISCOURAGED. UNNECESSARY FRAGMENTATION MAY RESULT IN REJECTION OF THE MANUSCRIPT.

Contributions which have appeared elsewhere or accepted for publication in some other journal will not be published in the journal. This does not apply for papers presented at a symposium without the full papers being published. Contributions are accepted by the Society on the understanding that the authors have not submitted the same paper (or same finding in some other form) to any other journal. A DECLARATION TO THIS EFFFECT SHOULD ACCOMPANY THE MANUSCRIPT. When contributions have been submitted to the society, the authors are not at liberty to send the same matter to any other journal unless they seek and get the permission to withdraw tne contribution from the society.

Proofs are not sent to the authors. They are handled by the Society. No free reprints are allowed. On intimation of acceptance, the authors have to order the number of reprints required at cost. After the reprints are ready, the bill is sent to the authors unless the reprints are ordered to be posted by V.P.P.
