

WORDS OF WISDOM

The end of all education is man making

“Education should have a definite goal to pursue. A sculptor has a clear idea about what he wants to shape out of the marble block; similarly, a painter knows what he is going to paint. The end of all education is man making.

Education is the manifestation of the perfection already in man. The aim of education is to manifest in our lives the perfection, which is the very nature of our inner self. This perfection is the realization of the infinite power which resides in everything and every-where - existence, consciousness and bliss.

After understanding the essential nature of this perfection, we should identify it with our inner self. For achieving this, one will have to eliminate one’s ego, ignorance and all other false identification, which stand in the way.”
