

Brief Bio-Data of Prof. Sudhir Mehrotra

- B.Sc. with Chemistry, Botany and Zoology from Lucknow University in 1985
- M.Sc. in Biochemistry in 1987.
- Ph.D from Kanpur University, Kanpur in 1992.
- October 1987 to 9th January, 1994: CSIR-NET qualified JRF SRF and RA. Worked on Calcium and oxygen free radical induced liver mitochondrial damage.
- 10th January 1994 – 3rd November 2006: Reader, Department of Biochemistry, Dr.RML. Avadh University, Ayodhya. Worked in the area of Photobiology; Harmful effects of Ultra Violet radiations.
- 4th November 2006 onwards: Reader, Department of Biochemistry, Lucknow University, Lucknow. Worked on hepatotoxic effects of Rotenone, carbonyl iron and ethanol on rat liver cells.
- 4th November 2009 onwards: **Professor, Department of Biochemistry, Lucknow University, Lucknow.** Worked on effects of Lead on living systems.
- 23rd March 2019 onwards: **Head, Department of Biochemistry, Lucknow University, Lucknow.** Working on effects of Lead on living systems.
- Field of research: **Biochemical Toxicology**
- Working in the field of Biochemical Toxicology for the last 32 years.
- Had several research projects funded by various funding agencies such as AICTE, UPCST, Lucknow etc.
- Published research findings in several National and International journals of repute such as Free radicals in Biology and Medicine, Drug and Chemical Toxicology, Molecular and Cellular Biochemistry, Indian Journal of Experimental Biology etc.
- More than 25 publications in various National and International journals of repute.
- Teaching Post Graduate students of the department currently at Lucknow University and earlier at Dr.RML Avadh University Ayodhya (for the last 25 years) : **Papers such as Clinical Biochemistry and Physiology, Immunology, Microbiology, IPR, Environmental Biochemistry etc.**
